

# Sladen Consulting Management Accountant

An Amazing Opportunity

May 2026

**SLADEN** / CONSULTING

Sladen Consulting is bursting with energetic, talented, and passionate people. We are proudly B Corp Certified and bursting with people who want to make a difference in others and the world in which we live. Would you like to join our crew?

At a truly exciting time for Sladen we have an opportunity to welcome a new **Management Accountant** to our adventurous Sladen family. Do our five guiding beliefs (the Sladen Way) resonate with you? Are you looking for a role with a company that takes every opportunity to make a positive impact in this ever-changing world? Then this could be the role for you!

Check out our website ([www.sladenconsulting.com](http://www.sladenconsulting.com)) and if you get that warm feeling when reading about us, then we would love to hear from you. If you don't have a background in consultancy – it doesn't matter, if you don't have a background in leadership development – it doesn't matter, if you don't have a background in coaching – it doesn't matter. What does matter is that you bring the whole of you to the workplace.

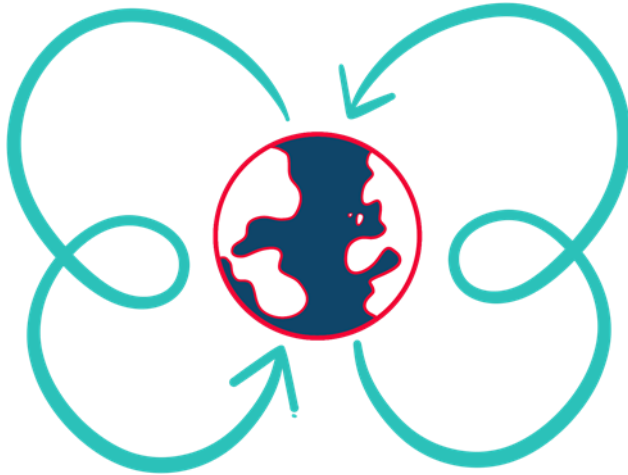

Success in the role means that you need to bring the ability to: quickly and accurately produce management information, embrace an ever-changing environment, be excited by the possibilities that AI brings to the finance function and definitely a 'roll your sleeves up' attitude. But the most important aspect is a great sense of humour! This is a non-negotiable! 😊

## A bit about the role of Management Accountant

- Manage month end process to produce monthly management accounts, including balance sheet reconciliations, business performance analysis and KPI reporting
- Oversight and management of CMap project financials and internal resourcing information, including creating reports in CMap for use by finance and the wider business
- Maintain data integrity and alignment between CMap and financial systems
- Support the delivery of Board reporting and strategic financial information to senior leadership
- Develop periodic financial forecasts, produce regular cash flow forecasting and performance projections
- Support annual budgeting process and produce ad hoc analysis to inform business decisions
- Continually improve financial processes, reporting and operational efficiency through effective use of technology, automation, AI-driven solutions
- Support cross-functional technology and systems projects
- Review and maintain IT service contracts and related supplier relationships
- Ensure compliance with relevant financial regulations, policies and internal controls
- Provide financial support and guidance to managers and colleagues across the business
- And.....having fun! 😊

## A bit about our ideal Management Accountant

- You must have a UK financial qualification or be part qualified and looking to obtain full qualification (ACCA, ACA, CIMA)
- Ideally you will have experience in consultancy, professional service or similar businesses
- You will be highly proficient at Excel with the ability to make the numbers tell a story
- You will be tech savvy and curious about AI
- Strong team player with excellent communication skills
- A can-do attitude is mandatory, as is the ability to be proactive and work independently
- Love a challenge and possess an analytical and creative mindset to solve problems and support data-driven decision-making
- A 'twinkle in eye', an easy smile and a great sense of humour is a must!

We believe talk is easy and it's actions that count. Using the 'earning to give' rationale we work hard to make a profit and have put a healthy slice straight into our Butterfly Fund. The Fund aims to support organisations around the world who are furthering the cause of our chosen UN Sustainability Goals: 'Clean water and sanitation' and 'Life below water'.

How can the Butterfly Fund help these organisations? Well, our strengths lie in engagement, change management and creating movements – which is exactly what is needed to turn the world around. Using our core skills of coaching, facilitating, teaching and consulting we want to create the change-makers of tomorrow. To nurture influential and successful individuals who together will contribute to building a sustainable and thriving planet.

The biggest way Sladen can play it's part, is to focus on working with our 'Sladen family' to galvanise action and create a multiplier effect through our clients, partners and relationships.

So, do you want to work for an organisation that walks the talk? An organisation that measures it's performance against the triple bottom line: People, Planet, Profit? Best read on then .....

Our working policy is 'work where you do your best work'. We focus on outcomes not how we get there! Our ideal Management Accountant will be based in the UK, however, other locations would be considered.

We do expect all employees to join us at our face to face team meetings, which are a valuable time for us to see our colleagues. These are typically for 2-3 days and take place 3 times a year near our HQ in English Peak District (and a beautiful place it is too!), or elsewhere in the UK. There will also be the opportunities to get together for in-person co-working as the need arises.

This role is a part-time role requiring 20-30 hours a week depending on the candidate. We are also happy to consider term time/school hours if appropriate.

We are super curious to explore all options with the right candidates.

## What next?

Please get in touch by emailing [carol@sladenconsulting.com](mailto:carol@sladenconsulting.com). We would love to hear from you whether it is to answer any questions you might have about the company, or the role. Please feel free to send us your CV or write to us expressing your interest.

Our desire is for someone to join us in this role as soon as possible, so please get in touch today.

Thanks!
